

Command & Control

We provide command and control for the Defense CBRN Response Force which is capable of conducting six core capabilities:

1. Mission Command
2. Identification and Detection
3. Technical and Non-technical Search and Rescue
4. Mass Casualty and Non-Casualty Decontamination
5. Medical Triage and Stabilization
6. Air and Ground Evacuation (Medical and Non-medical)

Joint Task Force Civil Support

Ever Vigilant - Always Ready

Department of Defense
CBRN
Response Force

Command and control of CBRN response forces in support of civil authorities

Mission Statement

Joint Task Force Civil Support anticipates, plans, and prepares for Chemical, Biological, Radiological, and Nuclear Defense Support of Civil Authorities (CBRN-DSCA) response operations. When directed, JTF-CS deploys within 24 hours of notification to command and control DOD forces in support of civil authority response operations in order to save lives, prevent further injury, and provide temporary critical support to enable community recovery.

Command Themes

RIGHT FORCE

Always in support

RIGHT RESPONSE

Our top priority is to save lives

RIGHT EXPERTISE

CBRN subject matter experts

DCRF Capabilities

The DCRF is a scalable force that consists of more than 5,000 personnel in all branches of the Armed Forces. They support the primary federal agency to save lives, prevent further injury and provide temporary critical support.
